Tirunelveli, Tamil Nadu

Professional Summary

Computer Science undergraduate focused on **software development, cloud computing, artificial intelligence, and computer vision**. Experienced in building full-stack, IoT, and AI-driven applications using modern development tools, with strong foundations in **data structures, OOP, databases, and software engineering**. Interested in cloud infrastructure, scalable systems, automation, and real-world technology solutions.

Education

Ramco Institute of Technology **2023–2027**
B.E. Computer Science and Engineering **CGPA: 8.16/10**

Sri Jayendra Swamigal Silver Jubilee MHSS **2022–2023**
Higher Secondary – Computer Science **86.5%**

Internship

Web Development Intern – Icanio Technologies **Jan 2025**

- Developed responsive web interfaces using **HTML, CSS, and JavaScript** and contributed to real-world frontend development tasks.

Projects

GAMEVISION AI – Indian Traditional Games Object Detection

- Developed a computer vision system using **Faster R-CNN, ResNet-18, PyTorch, Torchvision, and OpenCV** to detect five Indian traditional games.
- Built Pascal VOC dataset processing, augmentation, evaluation, bounding-box detection, and real-time camera detection.

RetailPro – MERN Stack E-Commerce Platform

- Developed a full-stack e-commerce platform using **MongoDB, Express.js, React.js, and Node.js** with JWT authentication, product catalog, search, shopping cart, wishlist, order management, and secure checkout.
- Built RESTful APIs and implemented CRUD operations for efficient product, customer, inventory, and order management.

Green Voice – Smart Waste Management System

- Developed an **IoT-based smart waste management system** using sensors and automated monitoring to detect bin levels and improve waste collection efficiency.
- Implemented real-time waste monitoring and automated disposal mechanisms to reduce manual effort and support smarter campus waste management.

Crux – AI Study Assistant & Document Summarizer

- Developed an AI study assistant using **Python, Flask, and Cohere API** for text/PDF summarization, flashcard generation, note management, and progress tracking.
- Developed REST APIs for frontend-backend communication and designed a responsive interface with authentication, theme customization, and downloadable summaries.

Technical Skills

Languages	Java, Python, C
Web	HTML, CSS, JavaScript, React.js, Node.js, REST APIs
AI/ML	Machine Learning, Artificial Intelligence, CNN, PyTorch, OpenCV
Cloud	Google Cloud Platform (GCP), Cloud Storage, Cloud SQL, IAM
Database	MongoDB, SQL
Core CS	Data Structures & Algorithms, OOP, Software Engineering
Tools	Git, GitHub, VS Code, Power BI, Figma, Blender, Unity

Certifications

- NPTEL – Introduction to Internet of Things **(Elite with Silver, 80%)**
- NPTEL – Foundation of AR/VR **(82%)**
- NPTEL – Programming in Java **(73%)**
- Cisco Networking Academy – Introduction to Cybersecurity
- Infosys Springboard – Digital Marketing Training

Achievements

- **2nd Prize – Hackathon** for GAMEVISION AI, demonstrating object detection using Faster R-CNN, PyTorch, and OpenCV.
- **1st Prize – INNOVATEX 25**, National-Level Technical Hackathon at CIT, jointly with Marcello Tech.
- Finalist – **VCET Innovation Hackathon**.
- Finalist – **KPRIET SDG Hackathon**.

Workshops

- Generative AI Workshop – Ajinkya Lohakare
- AR/VR Workshop – Ramco Institute of Technology
